Several years ago, God gave the vision for a coffeehouse in North Judson separately to several people... **a coffeehouse that would be community-driven and missional.** A place where people could enjoy not only a quality cup of coffee, but also interact in a non-threatening environment with those who love Jesus.

Located in the Hope Restored building, Common Coffeehouse is designed to be a cultural experience. With quality coffee served up front and an art studio in the back, *this coffeehouse will use art, music, and coffee to provide an atmosphere of openness and a heart of sharing and serving Jesus' love and help to others.*

Please join us in prayer for finances and the remodeling that needs to be completed so that the doors can be opened! And pray for lives to be touched!
